- Potato race.

Substantial cash prizes will be offered in each of the above events. Tug-of-war, South End vs. North End.

Messrs. Mouat Bros. have generously donated a box of cigars for the winners of the tug-of-war.

Sports are to commence at 2.30 p.m., and entries to be made at the post.

A football match, Ganges vs. a District team will commence at 3 p.m. To the winners of this event a football will be presented by the Islands Agricultural Association.

A large number of entries are being received by Mr. A. C. Alan-Williams, secretary of the Association, for the exhibition which will be held on Sept. 13, and the indications are that the show this year will be a record-breaker.

It has been arranged that the steamer Island Princess will make Ganges her first and last port of call on the day of the exhibition; a special rate of a fare and one third for the round trip being granted.

FLOWER SHOW SEPT. 1.

The members of the Salt Spring Island Women's Institute are very busy these days making final arrangements for their flower show, which will be held at Fulford Harbor on Friday, Sept. 1. There are a number of entries already in and a great many more are expected. It is confidently expected that the attendance and the number of entries this year will be very large. The launch "Elf," Capt. Lasseter, will make the trip from Sidney to Fulford on the day of the show, leaving here about 9 a.m., returning in the evening. Quite a number of residents of this district usually attend the show, and it is expected that a large number will make the trip this year.

FIELD DAY AT THE FARM.

A field day is being held at the Experimental Station this afternoon, when addresses by prominent speakers, will be given. There will also be a Farm exhibit, and Mr. E. M. Straight will give several demonstrations. A band will be in attendance during the day. A baseball match, the deciding game for the Jackson shield, will be played between Fulford Harbor and Sidney teams, and this game promises to be a very exciting one. Ladies are requested to bring refreshments, and also the necessary cups, saucers and plates. Tea and ice cream will be provided by the Farm management. An invitation has been extended to all residents of the district, and the indications are that a large number will be on hand.

Auditorium Will Re-open Sept. 8

Many Improvements Have Been Made in the Local Picture House During the Past Couple of Months

Patrons of the Auditorium theatre placed at the various windows along the side of the building, and later on Manager Halsey intends installing light around the sides of the building and a large light in the ceiling. The heating of the theatre has received considerable thought, and it has been decided to install a pipeless furnace, and it is confidently expected that with the improvements made it will not be difficult to heat the building.

There has been much work done on the building during the past couple of months, and the expenditure of money has been considerable, but Mr. Halsey started out to make the theatre as comfortable as possible, and has succeeded. The patrons of the Auditorium will certainly appreciate what has been done for their comfort and there is no doubt larger attendance at the various performances will result.

For the opening night, Friday, Sept. 8, Mr. Halsey is arranging for an orchestra of three or four pieces, and as the picture to be shown will be first-class it is expected that the theatre will be taxed to capacity.

WHY WE ARE GOING

The following was received from our worthy friend Hugh Savage, of the Cowichan Leader, and explains why we attend the convention this week:

"I am instructed to pour forth such eloquence that, after perusing this, you will work like blue murder, sustained and supported by the thought that on Thursday, Aug. 24, you will join your fellow murderers at Vernon in mutual conspiracy for improved methods of slaughter."

"It seems to be one of the phases of modern democracy—which should mean every individual sharing in the common government—that one has to persuade and cajole and browbeat and bombard with printed matter the benighted single or married democrat who should have sufficient 'savvy' not to need it. (Good for business that last, you say)."

What do you think of the farmer who objects to co-operation or doesn't know whether or not his cows are boarders?

"What do you say about the printer-publisher who 'hasn't time to go to conventions'; stays in a rut which is 'good enough for me'; lets his brethren tackle governments and give time and money in protection of his and their interests; and who 'knows more about the newspaper game than those fellows' will ever learn?"

In brief, what do you think of the man in any line who will not adopt business methods or will not keep himself informed?

"Great changes are going on in the weekly field. You cannot stop them any more than you could longer put off buying that typesetting machine. Your particular field is different to that of everybody else but—are you trying all the known methods? Won't you let others know of plans which have served you?"

"Our Alberta friends will be there. It is up to us as hosts to welcome them. Your B. C. brethren, daily and weekly, will be there. Come along and get to know them better. There's two little things you can do—even if you do sleep heavily."

"Bring your bathing suits. Vernon is the Garden of Eden (so Bill says). I hear they have water there still. You are also to 'bring your wives along to enjoy the penches.' I didn't write that. It is either Bates' 'Mission style' or the Commoner Walker method of allurements."

"If you don't come—well, words fall me. Maybe we shall meet elsewhere—maybe not."

WE ARE NOT AT HOME.

During the absence of the several managers of the several departments of The Review, Miss Joan McNaught has very generously consented to look after the destinies of the paper. Miss McNaught has been duly instructed how to receive patrons who wish to pay their bills—a very pleasant smile will greet them. No bills will be paid because—but why go into details on such a painful subject.

Had a Jolly Birthday Party

Master George Clark, of Patricia Bay, duly celebrated his eighth birthday last Saturday in a manner befitting his venerable age. Quite a number of invited guests were present on this occasion, and during the afternoon a very jolly time was spent by all. A delicious birthday cake occupied the position of honor on the table, it being surrounded by a number of other good things for little folks—and big ones, too. A variety of games were played during the day, and all the boys and girls put in a very happy day.

James Island News Items

(Review Correspondent.)

JAMES ISLAND, Aug. 21.—Mr. John Thompson left last Saturday morning for Vancouver on his holidays. This is to be a real holiday. He spends the first three days at the convention as delegate from James Island, on the fourth day he is engaged to meet Mr. C. C. Mulligan, noted breeder and judge of Roller canaries; on the fifth day he meets C. A. House, another noted English judge of the same birds, who is on his way from Australia to the Old Country. The sixth day he will spend with Mr. Munhall, who is bringing his entire stock of registered prize-winning Roller canaries from England, some of which are for Mr. Thompson. On the seventh day he arrives home, wonderfully rested up for another year.

Mr. and Mrs. Dakin left for their holiday on Saturday. They drove to Nanaimo with Mr. and Mrs. Whalen, who are also taking holidays, and after spending a few days there will go to Vancouver.

Mr. Yancy is again visiting the island.

Little Jill Biller celebrated her seventh birthday on Wednesday. A party of twenty-five set forth for Sidney Island in Mr. G. P. Allen's "Double O" and "Egg Beater," and had a big feast under the trees near the wharf. Having bathed and partaken of home-made ice cream and a big birthday cake without any candles (for fear of forest fires), the younger members of the party climbed trees and skipped and thoroughly enjoyed themselves until late in the evening when the two boat loads returned.

On Thursday the Sunday School picnic took place on the grass near the tennis courts. All were cordially invited and a generous supply of cocoa, cake and ice cream provided. There were races for the children, for which prizes were given and also a ladies' race, which was great fun. Since all that junk was put in the paper about that James Island salmon it has been caught again and again by adults and children. John Lyons, Joan Gould, Jill Biller and David Rogers all caught salmon since the Review came out. John landed and killed his own most skillfully.

Miss Doris Griffiths is the guest of her sister, Mrs. Bigwood, for a week. Lieut. H. Bigwood returned to Victoria on Monday morning, and Lieut. A. W. R. Rogers to Vancouver.

WHEN THE FERRY COMES IN

It's a wonderful sight on a Sunday night—

When the Ferry comes in.

Everyone's seeming happy and bright—

When the Ferry comes in.

There's a smile or a nod or a "how d'ye do?"

A shake of the hand, or "I'm pleased to meet you."

We all feel so jolly and look less blue—

When the Ferry comes in.

We're a critical crowd lined along the rails—

When the Ferry comes in.

A silent observer hears some funny tales—

When the Ferry comes in.

If a lady comes off with a real stunning hat,

Someone says "Heavens!" another says "What!"

I'd go in my bare feet before I'd wear that!"—

When the Ferry comes in.

If a "Chicken" arrives with bobbed hair so cute—

When the Ferry comes in.

The young fellows stand at the Royal Salute—

When the Ferry comes in.

They squint at her ankles and dainty pug nose,

Murmur "My baby," "My Wild Irish Rose."

Just where they get that stuff, God only knows.

When the Ferry comes in.

We take all the numbers and make of each car—

When the Ferry comes in.

Admire the "swell" ones that come from afar—

When the Ferry comes in.

And after the last one—a bumpy old Ford,

Clears, and the Captain sings out "All aboard!"

We rush for the Gleaner, as with one accord—

When the Ferry comes in.

Anyway, we were very pleased to see both the visitors and hope to have that pleasure again.

The Review

A lot of people are beginning to realize, is a newspaper that would do credit to a district having a far bigger population of enthusiastic people than the one which it covers. Of the very large number of weekly newspapers now published in the West it is doubtful that many, if any, publish the same amount of interesting and up-to-date reading matter as is found in these columns.

While it is almost impossible to obtain all the news of this large district, we are certain that we, through our large circle of excellent correspondents, obtain a very large proportion of it.

Our subscription price is only

per year and new subscribers are constantly being put on the list. In fact nearly all our entire issue is taken up with our list and consequently many people, who wish to buy a paper, are disappointed when we tell them that we are "sold out".

Therefore if your name is not on our list make up your mind to subscribe to the paper that you are most interested and that publishes the most news of the district in which you live.

Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosing with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief.

If you are to rid yourself of this ailment and the scores of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter:

Mrs. Alvin Richards, R. R. No. 1, Seely's Bay, Ont., writes:

"For two years I was afflicted with indigestion, and in the morning when I got up my breath was bad. I had a poor appetite, and just felt like eating certain foods. I used many different medicines as a laxative without benefit, and the doctor's medicine did not help me at all. Finally I tried Dr. Chase's Kidney-Liver Pills, and found them better than anything I had ever tried. I can highly recommend them to anyone troubled with constipation or kidney troubles."

NO BIRDS, NO FORESTS.

Insects are among the worst enemies of the human race. They destroy millions of dollars worth of farm crops annually in Canada and their destruction of timber in the forests is also very heavy. The officers of the Dominion Department of Agriculture and of the Forestry Branch of the Department of the Interior are constantly working to reduce the damage from this curse. So far as the general public is concerned, and this applies particularly to boys and girls, the best help they can give is to protect the birds. In some cases in England owners have saved their planted forests by putting up bird-houses and inducing certain kinds of birds to come to their plantations. In Canada in the past insects have been kept in control by birds. If the birds are destroyed or driven away, the insects multiply exceedingly and the farms and the forests suffer. Cats are inveterate bird killers and cat owners both in the city and country should be on the alert to prevent such destruction.

A CONCESSION TO HOME INVESTORS.

In offering to renew the five and a half per cent Canadian Government bonds maturing Dec. 1 at the same rate of interest as is carried by the maturing bonds, and allowing a bonus of one month's interest, the Minister of Finance is making a material concession to the Canadian investor, as this rate is higher than was paid on the recent Canadian loan in New York. The high class of the security, which is the very best that can be offered in Canada, and the liberal rate of interest should lead to large investments in these Dominion bonds. Attention is directed to the official advertisement giving details.

THE EDITOR SAYS:

Getting out a newspaper is no picnic. If we print jokes folks say we are silly; if we don't, they say we have no sense of humor. If we publish original matter they say we lack variety; if we publish things from other papers they say we are too lazy to write. If we don't go to church we are heathens; if we do we are hypocrites. If we stay in the office we ought to be out rustling news; if we are out rustling news we are not attending to our business at the office. If we wear old clothes we are not solvent; if we wear new clothes they are not paid for. What in thunderation is a poor editor to do anyhow? Like as not, some editor will say we swiped this from an exchange. We did.

A NEWSPAPER'S INCOME.

Subscriptions and advertising are the only two sources of revenue a newspaper has, and often the subscriptions do not pay for the cost of white paper.

Newspaper advertising is the greatest business getter there is. This is acknowledged by men who have tried it and know. People read advertisements in newspapers. They have been educated to do it.

We asked one of our business men the other day how his business was. "Very poor," he told us. "Have you a good stock?" we inquired. "I'll tell the world I have," he said. But he doesn't tell the world. He doesn't even tell the people here in his home town. Consequently, they read of the other fellow's goods and prices, and there go and buy. The other fellow tells the world—in the proper way.

You can't all be Wanamakers, but you can advertise in proportion to your business. And the results will be sure if you advertise honestly and give service. A newspaper can bring people to your store, but it can't make the people buy your goods. Your clerks have that job, for a great deal depends on the service you give.

What is being done in the big cities can be done right in this town, if you will show the pep, give the service and advertise. Make business good. You can do it by using printer's ink and that's what (to use a slang phrase) we hadn't got nothing else but—Cumberland Island.

VALUE OF CANADIAN MOTOR HIGHWAYS.

A remarkable increase in the volume of motor traffic into Canada in 1921 is shown by the returns compiled by the Department of Customs. According to their registrations, 617,285 automobiles entered Canada for touring purposes during the calendar year 1921. Of these 615,074 remained for less than one month and 2,211 for a period of more than one month and less than six months. The total number for 1920 was only 93,300 or an increase of 523,985 cars in one year. Allowing an average expenditure of \$25 per day including gasoline and garage charges for the first class of car and an average length of stay of seven days, this traffic represents an expenditure of over \$107,000,000, while the second class of car on the basis of an estimated expenditure of \$20 per day for thirty days was worth approximately \$1,326,000. This means that the motor highways of Canada brought in a foreign revenue last year of \$108,326,000. Estimated on a five per cent basis it means that improved roads are worth over two billion dollars to this country without taking into account the service they render Canadians themselves.

Rude Rural Rhymes

SWAT 'EM NOW.

Helena Hicks is witty and wise with adequate muscles and accurate eyes, adapted for spotting and swatting the flies. When any youth a partner picks he'd better marry Helena Hicks than almost any other six. This bard is old and bald and wary, of all strange drinking water scary, since first he heard of Typhoid Mary; but what avails his constant caare when flies are swarming everywhere? When, in the good old summer time which singers sing and rhymers rhyme, he sits at peace with all mankind with nothing much upon his mind and very little on his skin, those binned invertebrates begin. They come from stables and from worse to boost the business of the hearse. They come from garbage heaps and such, defiling everything they touch, with germs that slay our wives and widdies, our grandads and our pretty kiddies. Yea, many men have chills and itch, have glanders, pipe and limbs that twitch, and many little children die, because we fail to swat the fly. Let's smite the critter for his sins, his wives, his triplets and his twins, his relatives by scores and dozens, his sons-in-law and second cousins.

THE PACIFIC NORTHWEST.

That the Pacific Northwest has at last attained a fixed place in the galaxy of national summer resorts and that its fame has reached even the most conservative centres of the eastern states is shown by the way it is being featured this season by the established touring companies and summer resort guide-books. Where formerly the big tourist guides issued in the various eastern cities only included the places of easy access, they are now regularly devoting considerable space to this region.

An instance is the Summer Resort Guide issued this season by the Philadelphia Public Ledger, which contained several pages bearing on this district. More than one full page is devoted to an illustrated description of this "land of allurements" as it is called, which portrays vividly the delights of a vacation spent in Oregon, Washington and British Columbia.

"The travel trails of the Pacific Northwest," it states, "lead from mountains to seashore, each telling its own interesting story of beauty and grandeur, any one of them furnishing an adequate alibi for a vacation in this greatest summer playground of the American continent."

"Automobiling, camping, fishing, hunting, motor-boating, sea bathing, canoeing, golf, yachting—all these may be enjoyed here amid surroundings unequalled anywhere in the world for majestic beauty. There are good roads, magnificent scenery, including glaciers, mountains, forests, waterfalls, lakes, rivers, sea beaches, fjords and pastoral scenes that will bring a thrill of wonder to the most blasé globe trotter. And the entire region, vast as an empire, is easily accessible, for it is served by nine transcontinental railways and a number of national highways for automobile travel.

"A vacation in this land of wonders is the acme of climatic delight, as it rarely becomes warmer than 80 degrees in the middle of the day, while cool, healthy, sleep-inducing nights prevail.

"In its forests and meadows poisonous reptiles and insects are alike unknown. The mountain summits are high enough and climbs rugged enough to satisfy the most experienced Alpinists, while comfortable camps and hotels, nestling beside highland lakes and rivers, gratify the taste of those who prefer to go mountaineering de luxe.

"In this wonderful land of mountains you will see rushing rivers thundering down from the mountains; mighty waterfalls, hundreds of feet high, like ribbons of beaded foam; translucent lakes mirroring their lofty peaks and fringed with carpets of green; meadows like cultivated parks with gorgeous wild flowers. Here in the warmth of sunshine you can snowball like children and coast to your heart's content, climb and explore, camp and rest. Through its unrivalled good roads the Pacific Northwest offers easy access from the large cities to sea beaches, magnificent mountains, great spreading lakes, virgin pine forests, smiling valleys, rolling hills and extinct craters."

This guide also includes a full page advertisement of the Pacific Northwest Tourist Association, which announces the 28 per cent reduction in summer fares and tells how to spend a vacation that is "different" among the varied attractions of "this great outdoors." This same advertisement also appeared in the Monday evening edition of the Public Ledger and in forty-three other important papers in the United States and Canada as a part of the campaign which has been so effective in bringing tourists to the Pacific Northwest this summer.

'CAUGHT RED HANDED.'

One winter evening in the city of Manchester, when a water inspector was going his round, he stopped at one of the mains in a busy street to turn off the water owing to some repairs. He had just put the handle on the top and begun turning, when a hand was placed on his shoulder by a tipsy gentleman, who said in a drunken tone: "So I have found you at last, have I? It's you that's turning the street round, is it?"

A CHALLENGE

We have so frequently heard the remark "Why can you not sell meat as cheap as they do in the city, where they have to pay big rentals?" Bring any ad in any paper from the city and we will go one to ten cents per lb. cheaper.

ADVERTISING PAYS

The merchant who does not advertise is as far behind the times as the old-time stage coach. He plods along in the same old way, year after year, while the more progressive merchant places his wares before the public and increases his business year by year. Persistent advertising has made millions for many progressive merchants, who recognized the value of advertising from the first day they commenced business. The Review goes into almost every home in the district and is the proper medium for reaching the people.

Telephone Signs on the Highway

Convenience in vacation days is made possible by the telephone. The telephone shield along the highways means that anxieties can be eliminated, changed plans made known, emergencies more quickly relieved. It is a symbol of assurance to the motorist, and he may rely on it day and night. In rural offices, a telephone booth has been placed outside so that it is always convenient for people traveling to put in a call.

WORTH REMEMBERING

WINDOW PLANTS.

Never water window plants unless the soil looks dry. Put enough water on them to wet the soil thoroughly. Too much water will sour the soil.

CRETONNE COVERS.

When buying cretonne for the bedroom curtains, buy enough extra for bureau scarfs, which come as welcome change in the summer time and not soil readily.

STOVE POLISH.

Mix your stove lustre with turpentine and apply in the usual way. The turpentine will prevent rust and the combination will make the stove look like new.

FORKS IN LIEU OF SPOONS.

Use a fork instead of a spoon when blending corn-starch, flour or cocoa with water. They will mix much more readily.

TO RENOVATE TOWELS.

The torn edges of Turkish towels can be cut off and the fresh edges bound with strips of colored gingham, thus adding to the life of the towel and still keeping it attractive.

CANDIED CARROTS.

In this season, when there are no sweet potatoes to candy, carrots can be substituted with great success. Boil them until tender, slice and cover with brown sugar and butter and bake.

RICH-LOOKING STEW.

When making over meats into stews or hashes, a good color can be obtained by leaving the outer skin on the onions used and fry in butter as usual. No other coloring matter will be necessary.

FRIED HAM.

When the fat on a slice of ham is fried to a deep brown you can be sure that the meat is done.

WILL CUT GREASE.

Add a little ammonia to the water in which oily bottles and greasy glassware is to be washed. It will cut the oil and grease and speed up the washing process greatly.

NEW POTATOES.

There are so few ways of varying the cooking of new potatoes that a pleasing change is made by adding half a teaspoonful of celery salt and a small onion to the water in which you boil them.

LINEN STAINS.

It is sometimes difficult to locate the stains on the tablecover after it has become wet. Lightly outline the stain you wish to remove with a lead pencil or a chalk that will wash out readily before immersing.

WHEN BUYING SILKEN HOSE.

It is a good plan to ask the saleswoman to examine the stockings you buy. She does this by putting her hand through the stocking to show up defects in the weave. If you always request this favor you will never have the embarrassment of returning them later on.

DIGESTIBLE BANANAS.

Bananas are more digestible if, after peeling, the pulp is scraped and the fuzzy surface removed.

MORE FLAVOR.

Add some grated cheese and some chopped mushrooms to the white sauce for fish and note the improvement.

SMILE AWHILE

A PLEASANT MEMORY

A resident in London was travelling in America, when he fell into conversation with a waiter who had been a Sammy in France during the war.

"Have you any pleasant memories of France?" he asked.

"Oh, rather!" answered the ex-Sammy.

"What did you enjoy most in France?" continued the inquirer.

"Well, I guess it was the French pheasants singing the Mayonnaise!" replied the waiter.

NOTHING BUT THE TRUTH.

Little Willie had been very, very naughty—so much so, in fact, that after having reprimanded him several times his mother was at last forced to punish him severely.

When his father arrived home in the evening he at once perceived that Willie's eyes were suspiciously red.

"What's the matter, sonny?" he cried.

"Oh, nothing," responded Willie, uneasily.

"Come, don't be frightened," said the father in coaxing terms, "tell me all about it; I want to know."

Willie remained silent for some time, then he suddenly burst out:

"Well, if you must know, I've had a terrible row with your wife."

CODDLING THE COW.

It happened in a small grocery store, where they kept anything from a two-foot rule to a pearl necklace. Court plaster and sausages were also sold, and, if necessary, you could get a haircut or a horse shod in the back yard.

A farmer stopped there to get some liniment to rub the rheumatism out of a cow, and two or three days later he returned with a grievance.

"Look 'ere," he said, "I wish ye would be a little more careful how ye throw yourself about behind that counter. The other day ye gave me some eau-de-Cologne instead of liniment, and hang me if I didn't put it on the cow afore I found out what it was."

"It hasn't hurt her, has it?" broke in the grocer.

"Can't say it has," answered the farmer. "But ever since I put that sweet-smelling stuff on her she hasn't done a bloomin' thing but just look at her reflection in the duckpond and sigh."

Moths in upholstery can be removed by dabbing the fabric with benzine.

To clean linoleum, take equal parts of olive oil and vinegar, and rub with a soft cloth. This prevents cracking, and gives a good polish.

CHEERFUL IDIOT SAYS

I am firmly convinced that kissing is dangerous. It invariably leads to the altar.

I believe that the one-piece bathing suit is a good thing for men—to look at.

I am for woman suffrage, and believe all of them should go to the polls. The North and South.

I don't believe that an engaged girl should make use of her lip-stick. It very often leaves an impression on her sweetheart.

I believe the shimmy is a good thing for the country. It keeps the reformers' minds off tobacco.

I believe all taxi-cab drivers ought to be made to study poetry. Then they'd appreciate perfect meters.

I believe with the poet that beauty is skin deep and that the woman who uses rouge to change her complexion is a deep skin.

HONESTY PAYS.

Mark Twain was called upon to speak at a club dinner and took for his theme, "Honesty." He said when he was a boy at home he one day saw a cart full of melons. He was a boy—and he was tempted; besides he liked melons.

"I sneaked up to that cart," said Mark, "and I stole a melon. I went into an alley to devour it. But—I had no sooner set my teeth into it than I paused; a strange feeling came over me. I came to a quick resolution. Firmly, I walked up to that cart, placed the stolen melon where I got it from, and took a ripe one."

STRATEGY.

Three Scotchmen went to church, each clutching tightly the penny he intended to contribute when the plate was passed. Consternation reigned when the minister announced that this particular Sunday an effort was to be made to raise the mortgage, and asked every member of the congregation to make a substantial offering.

During the prayer the Scots held a whispered consultation as to the solution of their dilemma, and reached a satisfactory decision.

One fainted and the other two carried him out.

"Greater Victoria"

When Sidney becomes "Greater Victoria," Victoria will, geographically, become a "suburb" of Sidney—that is, a place where we can go and pay our taxes without question or being conscious we are doing so; spend any, but preferably all, the money we may earn or have no use for and thereby help to make Victoria, our suburb, richer, bigger, brighter and, if subtle, "more sane," for the Lord knows it needs to be. A smart lawyer might designate this statement as profundus bulus, or some other equivalent in Latin for the ordinary market garden brand of bull. Nevertheless, a few ancient postmasters have already described the "Greater Victoria" idea as a "Tod"—in-the-hole proposition. Now, this is not quite fair to the "Tod" because
